

SHERIDAN WINDOWS

Helping design your dream windows & doors for your home...

SHERIDAN WINDOWS

ABOUT US

Welcome to Sheridan Windows, where tradition meets expertise in the heart of Tyrrellspass. For over four decades, we've been a cornerstone in the windows and doors industry, proudly serving as a local, family-run business. Our journey has been one of passion, dedication and a commitment to bringing the best in window and door solutions to our clients.

OUR TEAM

At Sheridan Windows, our strength lies in our team. We are a close-knit group of 12 specialists and installers, each bringing years of experience and expertise to the table. Our team is more than just skilled professionals; they are artisans who take pride in their work, ensuring that every installation and service we provide is executed with precision and care.

OUR QUALITY COMMITMENT

Quality is not just a word for us; it's a promise. All our doors and windows come with Energy Rating certificates, ensuring that your investment is not only beautiful but also contributes to energy efficiency and sustainability. Coupled with the manufacturer warranties, our products are a testament to our dedication to quality and customer satisfaction.

WINDOWS & DOORS

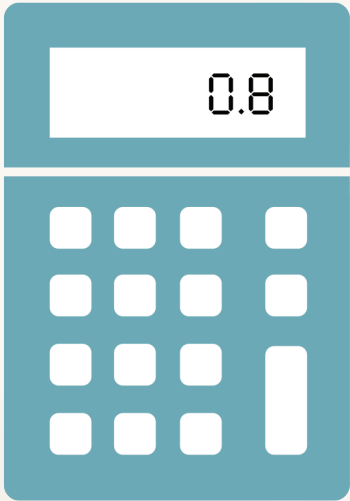

TECHNICAL INFORMATION

A-RATED WINDOWS

Choosing the right replacement windows can help to make your home more energy efficient and can reduce your heating bills. We manufacture our frames to British Standard Institute (BSI) energy ratings A, B or C when combined with the appropriate glass.

TRIPLE GLAZING

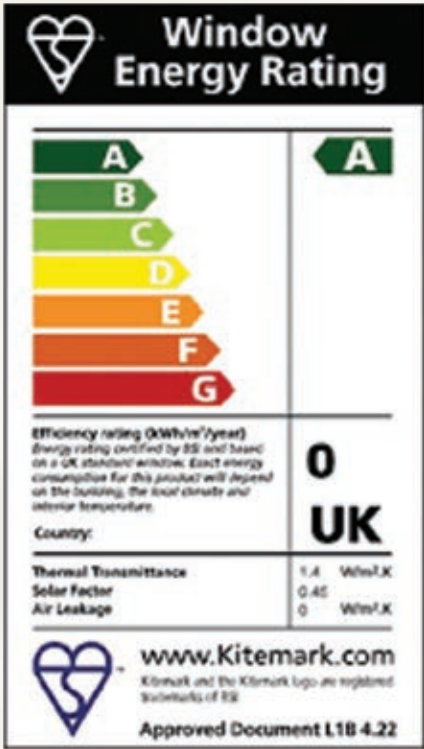

We also manufactures frames suitable for triple glazing (ELITE 70 systems only). When combined with the correct glass and reinforcing specification, a whole window U-value of 0.8W/m2K can be achieved (windows only).

ELITE 63

ELITE 70

FRAME

Bevelled or Ovolo

GLAZING

28mm double glazing
36mm triple glazing
40mm triple glazing
44mm triple glazing

ADDITIONAL FEATURES

Georgian bars
Astragal bars
Sash horns

ELITE 63 U-VALUES

Rating	u-Value	Glass
A	1.4	Double Glazed (standard)
A	1.1	Triple Glazed (standard)

ELITE 70 U-VALUES

Rating	u-Value	Glass
A	1.4	Double Glazed (standard)
C	1.2	Double Glazed (special) (60mm face frame)
A	1.0	Triple Glazed (standard) (60mm face frame)
A	1.1	Triple Glazed (standard) (70mm face frame)
A	0.8	Triple Glazed (special) (60mm face frame)

CASEMENT WINDOWS

Casement Windows are the most popular window type and can be designed to suit any type of property. They come in a wide variety of configurations including fixed, top or side openings and offer superior insulation and security.

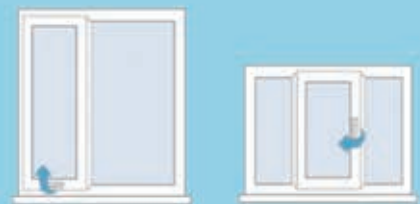

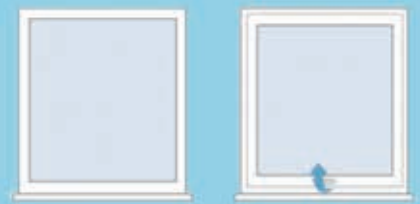

HIGH QUALITY TRIPLE GLAZED CASEMENT WINDOWS

PRODUCT KEY BENEFITS & FEATURES

- 5 chamber system to increase thermal performance and reduce cold bridging.
- Large reinforcement chambers giving optimum strength under wind load.
- Can achieve a Band 'A+' WER.
- Equal sash to frame overlaps across all products giving a consistent rebate cavity and allowing a good choice of hardware.
- Casement, Tilt & Turn, Doors, Fully Reversible and Flush Tilt & Turn.
- Triple glazed option with 40mm and 44mm glazing.
- U-values to 0.8W/(m²K).
- Secured by Design accredited.

The size and style can be tailored to your openings according to the position of your window and the space available.

CASEMENT WINDOWS

TILT & TURN WINDOWS

Tilt the handle halfway to tilt inwards or twist fully to open like a door, These dual functioning windows are versatile and easy to operate. If required, this window can be used as a fire escape.

Above: Window in turn action state.
Handle turns 90° to open the window
in the turn state

Above: Window in tilt action state.
Handle turns 180° to open the window
in the tilt state.

KEY BENEFITS OF TILT & TURN WINDOWS

VENTILATION

The tilt function allows for top ventilation, easily enabling hot air to escape through the top portion of the window, this also cuts back on strong breezes coming into the room. The dual option enables the home owner to control their room environment.

EASY TO CLEAN

With the tilt and turn window opening inwards, you can safely clean the exterior of your windows while inside your home, thus removing the need for ladders for maintenance.

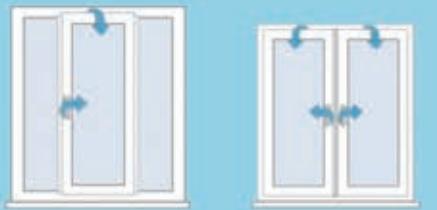

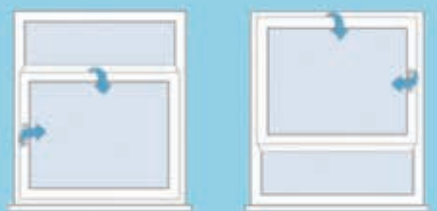

MORE SECURE

The tilt and turn window has more of a robust internal hardware with multiple locking points. The inswing hinges secure the window from being forced/pulled open from the exterior. The tilt function also aids in security while still enabling ventilation.

LARGER WINDOW SIZES

Another benefit of tilt and turn windows for architects and home owners are larger window size options. If the design of your windows in your home requires larger panes of glass with minimal view obstructions the tilt and turn window is the perfect solution.

TILT & TURN WINDOWS

FLUSH SASH INLINE CASEMENT WINDOWS

ENGINEERED EXCELLENCE

Our flush sash window is double rebated therefore they are seriously tough and resistant to extreme wind and rain, making them the ideal choice for less sheltered or coastal facing homes.

The fully timberweld joints give a seamless welded finish with perfectly fitted corners so no open ends for air or water to get in. Making it even more unique from its counterparts, the flush sash is glazed like a standard casement window - no bonding required. Resulting in less disruption during installation.

The innovative design boasts an A WER rating from the British Fenestration Rating Council (BFRC), granting a comfortable home throughout the year, as well as helping homeowners save on their energy bills.

FEATURES & BENEFITS

PVCu WINDOWS

Our range of PVCu windows come in many styles and finishes, designed to suit any home. Offering high security, energy performance and low maintenance as standard.

1

A+ RATED ENERGY

As standard we offer A+ and A++ energy ratings in double and triple glazing options. With our high performance energy ratings you can save money on your energy bills.

2

SAFETY & SECURITY

All our PVCu windows come with high security multi-point locking as standard, ensuring you a safe and secure home.

7

STYLE

PVCu windows allow a wide range of styles to be produced to suit your home, from contemporary to traditional.

6

CHOICE OF COLOURS & FINISHES

Colours are becoming more popular and allows you to individualise your home. Not just the outside but the inside too. Choose from our extensive range of colours.

5

HANDLE OPTIONS

Our PVCu range is available with a suite of handle types and colours to suit your home and style.

3

GLASS DESIGNS

Why not individualise your home with our range of glass designs. Choose from Lead or Georgian designs for added features. We even provide obscure glass for increased privacy.

4

LOW MAINTENANCE

PVCu is a robust and hard-wearing material that requires minimal maintenance. Just wipe clean or wash to keep your windows looking as good as new.

SLIDING SASH WINDOWS

Choose the benefits of modern materials, design and technology combined with the proportions, grace and elegance of an enduring classic style.

A WORLD OF COLOUR

Vertical sliding sash windows look great in pure white PVCu. It's a classic, but why stop there when there's a colour or finish to suit any style of property. and if white is your preference, why not choose a grained finish that replicates the appearance of painted wood? We even offer dual-colour options so you can choose something different for indoors and outdoors.

THE EUROSASH WINDOW

Stunning in period properties and bringing a touch of distinction to contemporary new builds, Eurosash windows can be customised to give the look your home needs.

Our windows are available in a wide range of beautiful colours and finishes in addition to pristine white, all complemented by your choice of hardware.

All our sashes are internally glazed.

All our sashes have an ingenious tilt inwards feature that makes them simple to clean.

Our windows feature authentic ovolo-shaped detailing throughout, even down to the cills.

Windows can be coupled together or fitted to bays and bow windows.

THE EUROSASH APPROACH

Our approach is positive. If you want a window to solve a problem, match a style or satisfy the planners, talk to us.

We can:

- Create arched head or gothic shaped windows.
- Include decorative glass
- Include authentic raised astragal bar detail
- Add trickle vents to conform with building control
- Add high security camlocks for peace of mind
- Add weatherbars for exposed locations.

And, of course, we can guarantee beautiful windows that are secure, safe, insulating and easy to care for.

Eurosash – smart ideas and enduring style

ALUMINIUM LIFT & SLIDE PATIO DOOR

Combining the benefits of a large picture window, which allows light to flood into an internal space, with an easy opening operation. Our Lift & Slide doors are a high quality, highly versatile system which is a great option for even the largest project. Delivering outstanding thermal efficiency, our Lift & Slide doors offers contemporary styling and robust performance, with the option of lift and slide operation on double or triple tracks.

OUR ALUMINIUM RANGE

ALUMINIUM WINDOWS

BI-FOLD DOORS

BI-FOLD DOORS

BI-FOLD DOORS

CURTAIN WALL SYSTEM

UPVC FRENCH DOOR

A new build or an extension, whatever the project, French doors are a great way to fully open up a room to provide additional light and space. A more traditional alternative to patio or bi-fold doors, this stunning style will provide a bright opening onto your patio or garden.

Manufactured to suit your home with a choice of inward or outward openings, ideal if your space is limited. Superior seal for improved weathering protection with PCE concealed gaskets.

Like all our windows and doors you have an unlimited hardware choice, vast range of ancillary products and a wide range of Renolit Foil colour finishes to choose from. The French door also can be designed with aluminium low thresholds for disabled access.

UPVC PATIO DOOR

Patio doors are a versatile option and ideal for both conservatories and porches. The handle and locking system provides improved aesthetics and security through outward opposing hooks which prevent the leaf from being lifted from its frame.

Available in two, three or four pane options with high security hook locking mechanism. Our patio doors are designed to insulate whilst also allowing for more natural light. Boosts a slimline profile for maximum daylight and improved views. Combine with side panels to create a 'wall of glass'.

What's more is the easy-glide tracks and rollers for smooth sliding action, doors can be lifted to the inside or the outside.

Complete the look with a Renolit Foil colour finish of choice from our range.

OUR WINDOW SYSTEM

WINDOW HINGES

A range of window hinges are available. We provide the most secure and robust hinges on the market.

OUR RANGE

- Standard
- Fire Escape
- Easiclean
- Restrictor

- * All our Upvc double glazed windows come standard with 28mm glass with a 1.4 U-Value rating
- * All our Upvc triple glazed windows come standard with 40mm glass with a 1.1 U-Value rating and can reach as low as 0.8 U-Value

UPVC STABLE DOORS

Stable doors provide a charming entrance to the home and their style makes them ideal for cottages, terraces and older properties with character. Our stable doors offer a tilt and turn system on the top half. A wide choice of colours, door furniture and locks are available.
